The attackers then withdrew for consultation. Sherily they returned to the attack, assailing the heavy doors of the convent with battering rams. When the doors yielded the soldiers and people rushed in and searched every nock and corner of the edifice, but not a friar was to be found. It is surmised that they made their escape by underground passages, where they are now in hiding.

Unidentified Woman Murdered in Fashionshie Apartment
House,
New York, October 7.—The mysterious murder of an unidentified woman of refined appearance in a fashionably apartment house on Riverside Drivs to-day is puzzling the police as few recent crimes have done.
The woman's body was found in the rourty and of the house, and gave every indication that the victim had been literally beaten to death. Face and body were covered with bruitses and lacerations, and one thumb was bitten nearly off. Her ciching was of the best quality, and markings upon it showed that it had been purchased at fashionable shops, but there was nothing to give a clue to her identity.

Boy Held as Suspect.
The negro elevator boy of the apartment house, Clarence Holcomb, who said he had admitted the woman to the building at an early hour to-day was arrested and held—a suspicious person. The police believe the woman was murdered in the bar from of a vacant apartment on the ground floor and her body pushed from the window into the courtyard.
